Foreman Joseph Lynman's gang of men set off a charge of dynamite in the big ditch at a point fifty feet below the payement level. It is claimed that they failed to properly cover and protect the blast-something that has happened a great many times before there.

At the roar of the explosion a shower of shattered fragments of stone flew high in the sir, falling all over the neighborhood. The biggest stone of all, weighing thirty-five pounds or more, shot upward for a distance of three launders from dred feet in a norteasterly direction descended in the midst of a squad of laborers. Acting Inspector Hodgins, who was passing on a Seventh avenue car, witnessed the tragedy. He arrested Lynman, the foreman, and locket him up. The Board of Combustibles has a fireman, Edward I. Smith, stationed at the excavation to superintend the blast ing operations. He arrived just after the blast was set off. Smith said the foreman had no right to begin work with explosives until his arrival.

Acting Inspector Hodgins, who was passing on a Seventh avenue car, with the sound the program of the beard said they had been so notified by the district officials. Members of the board said that every step possible would be taken to prevent violence, and a formal declaration to the miners forbidding rioting or destruction of property and urging them properly to conduct themselves would probably be issued.

There are a large number of them now in operation and as unskilled workers can run them, the operators anticipate no difficulty in keeping them going.

Charles D. Brown Brings Action On Railroad Bonds.

An action was commenced to-day in the United States Circuit Court by Henry J. McCormack, an attorney of No. 27 Pine street, representing Charles D. Brown, of this city, who asks that a judgment of \$5,367,740 be awarded him against the Memphis, El Paso and Pacific Railroad Company, a Texas cor-

cific Railroad Company, a Texas corporation.

According to the compaint, the defendant corporation, in February, 1887, issued 2,400 first mortgage bonds of \$1,000, bearing 8 per cent. interest.

Mr. Brown, alleges that he became the owner of 1.897 of the bonds; that no interest has been paid on the securities since 1868. He, therefore, asks judgment for his principal of \$1,697,000, and interest to date. The latter, computed at 6 per cent. and not compounded, amounts to \$3,700,740, making a total of \$5,887,740. Such is the philosophy of Joseph A. Turney, the defaulting note-teller of the National Bank of North America. Some of the friends his money brought him during the five or six years he was stealing from the bank were of the opposite sex, and to avoid exposure of details concerning them Turney is ready, as he expresses it, to "take his medicine."

Turney is ready, as he expresses it, to "take his medicine."

Detectives employed in tracing his relations with women other than his handsome blond wife discovered to-day evidence tending to show he was a close friend of Ruth Rogers, the unfortunate young woman who shot and killed herself three weeks ago at No. 154 West Eighty-fourth street. Turney, when told of this, emphatically denied he had known Ruth Rogers.

Few of Turney's associates, either in business life or in the Twentysecond Regiment, in which he was captain, knew of his relations with women. They supposed him devoted to his handsome wife and his big son, with whom he lived at No. 64 Montague street, Brooklyn, in the Arlington apartments. Turney told an Evening World reporter in the Tombs to-day that he had been corresponding with other women for ten years. He kept all the letters he received in his locker at the Armory, and they were found there last night.

That old admonition, "Look for the womas," occurred to the detectives yesterday. They didn't have to look far. In the morning mail that reached the bank there was a square, white envelope addressed to Turney in the handwriting of a woman. The detectives opened the envelope. Inclosed was a bill for \$13 for gas used by Mrs Edna—in a flat convenient to the Twenty-second Regiment armory, at Sixty-seventh street and Broadway. This raid on the consumer's pocket is aggravated by the fact that the isual spring reduction of 50 cents a control of sold becomes effective on April 1, so that to-day's raise is in eality a boost of \$1 above the normal. In issuing notice of the advance the lealers gave no reason for their action. The opportunity to rake in a few extra could not overlook the chance for a root of the r

"But didn't they suspect anything; didn't they see that your accounts were doctored?"

'Housecleaning" Committee Also Urges Suits Against Trustees.

The Truesdale Housecleaning Comlittee of the Mutual Life made public

The committee believes the system of conducting the annual elections o trustees is radically wrong and should be changed. The report says nearly all of the 600,000 policy-holders are entitled to vote, but at the annual election in were nearly all trustees or employees of the company. The report says:

The recommendation of the legislative mmittee limiting new business writn to \$150,000,000 per year is indorsed. Deferred dividend policies are called "a nongrel type of insurance," and the ommendation of the legislative comnittee that the writing of such policies be discontinued is approved. The committee hesitates to critcise investments in stocks of banks and other financial nstitutions, but says such holdings should be limited to 10 per cent. of the

stock outstanding. Syndicate participations are disapproved either by the company or any of its officers or trustees.

As to Campaign Funds. The committee says it is advised that the company's funds donated for political or campaign purposes were unlawfully dis-bursed, and recovery can be had from the officials or trustees re-

OFF CHILD'S LEG IN AMBULANCE Dr. Kutcher Makes Desperate Effort to Save Life of Elizabeth McGlory.

In a desperate effort to save a child's life an ambulance surgeon to-day amputated a four-year-old girl's crushed leg while driving at breakneck speed to the Lebanon Hospital. The child was Elizabeth McGlory, of No. 157 Lincoln avenue, the Bronx, and her con lie tion was such that when she arrived at the hospital little hope was enter-
